SAMPLE ACT STUDENT REPORT*

Rank

Your Score
 — Your Score
 ■ Your Score Range

Your Score Range
 Test scores are estimates of your educational development. Think of your true achievement on this test as being within a range that extends about one standard error of measurement, or about 1 point for the Composite and writing scores, and 2 points for STEM, ELA, and the other test scores, above and below your score.

ACT College Readiness Benchmarks
 ● Readiness Benchmark
 If your score is at or above the Benchmark, you have at least a 50% chance of obtaining a B or higher or about a 75% chance of obtaining a C or higher in specific first-year college courses in the corresponding subject area. There are currently no Benchmarks for ELA or writing.

*This is an example of a score report that's similar to the one that you'll receive after you take the real ACT. ACT is a trademark of ACT, Inc., which was not involved in the production of, and does not endorse, this product.

Also, you may notice that this score report is different than the one in the recently released, Official ACT Guide: 2016-17 Edition. Inexplicably, ACT changed the report (and essay grading scheme) immediately after releasing their newest book. We've chosen to display our sample in the newest format and use the newest essay scheme, despite the fact that it currently doesn't match their official book. Hopefully they update their materials soon, but in the mean time, we wanted to clear up any confusion. You can find info on the new report here:

www.act.org/content/dam/act/unsecured/documents/2016-17_StudentReport_withWrite_sampledata.pdf
